M-C's Premier Remote Dryer Monitoring System

Access Dryer Information from Any Device, Anywhere

Monitor critical dryer data:

- Alarms, including a list of all active alarms
- Discharge Mode
- Discharge Moisture %
- Discharge Temperature
- Discharge Rate
- Infeed Moisture % *(if equipped)*
- Infeed Temp *(if equipped)*
- Mid-Grain Average
- Mid-Grain Set point
- All four mid-grain temperature readings
- Plenum – Set point and actual of all plenums *(Plenum data not available on 2010 Pinnacle Lite control systems)*

All of this information is displayed in an easy to scan design which is formatted for display on either a smart phone or a computer browser. If your account includes access to multiple dryers, you will be able to monitor all of your dryers that have an M-C Trax installation.

Remote Monitoring Made Easy!

M-C Trax setup does not require any network configuration or software for the dryer owner to worry about. The only requirement is that a wired internet connection be available at the

grain dryer.

Try Risk Free

If you are not happy with M-C Trax for any reason simply return the hardware within 30 days and we will refund the full purchase price. M-C Trax is available through your M-C dealer.
